Khoa Tran Thanh

SOFTWARE ENGINEER · FULL STACK & PRODUCTION OWNERSHIP

Phone: +84 971 993 267
Email: khoatran.ror@gmail.com
Location: Ho Chi Minh City, Vietnam

PROFESSIONAL SUMMARY

Software Engineer with over 10 years of experience building and maintaining web and mobile products across fintech, real estate, energy, and education. Owns delivery from clarifying requirements and designing APIs to implementation, deployment, monitoring, and production support. Works across TypeScript, JavaScript, Ruby, and PHP, choosing tools to fit the problem and the team. Prioritizes performance, security, and code that is straightforward to maintain, with a practical focus on resolving issues quickly and keeping products reliable.

ENGINEERING APPROACH

PROBLEM SOLVING AND OWNERSHIP	Clarify the business need, work across application layers, and carry changes through deployment and support.
PERFORMANCE AND RELIABILITY	Treat responsiveness and dependable operation as priorities; use production monitoring, crash reports, and logs to guide investigation.
SECURITY	Experience implementing permission and approval logic, secure login, identity verification, and financial risk workflows.
MAINTAINABILITY	Reusable components, shared types, consistent API contracts, unit and integration tests, and code review.
PRODUCTION SUPPORT	Hands-on release ownership, crash monitoring, and support for deposit, withdrawal, and payout workflows, with a focus on prompt response and practical resolution.

TECHNICAL SKILLS

LANGUAGES AND APIS	TypeScript, JavaScript (ES6+), Ruby, PHP, SQL, REST API design.
FRONTEND	React, Next.js, React Native, Expo, Angular, Tailwind CSS, Tamagui, React Query, shared component libraries and design systems, HTML5, CSS3.
BACKEND	NestJS, Node.js, Supabase, Firebase, Inngest, serverless and edge functions, WebSocket, Ruby on Rails, PHP.
DATABASES	PostgreSQL, MySQL, SQLite, MongoDB, Redis, TypeORM.
DEVOPS AND DELIVERY	Vercel, Docker, Kubernetes, GitLab CI, GitHub Actions, EAS, App Store Connect, Google Play Console.
MONITORING AND ANALYTICS	Sentry, PostHog.
WAYS OF WORKING	Solo and small-team ownership, Agile, Scrum, code review, CI/CD, AI-assisted development with Claude Code.

WORK EXPERIENCE

Full Stack Developer · Oivan

August 2022 - Present

Ho Chi Minh City, Vietnam

- Deliver features across backend services, REST APIs, and the Angular front end for Sakani, a large Saudi housing platform serving developers, brokers, and home buyers.
- Build reusable form and table components across modules to keep UI behavior consistent and reduce duplicated code; deliver map-based property search, Arabic and English localization, and Hijri date handling.
- Deliver project, booking, price quotation, and subsidy contract workflows end to end, implementing permission checks and approval logic as part of the core business flows.
- Integrate government, banking, and payment services, and keep the API contract between backend and front end consistent and typed.
- Write unit and integration tests, review merge requests, and own tickets from development through code review, continuous integration, and deployment.

TypeScript · Angular · Ruby on Rails · PostgreSQL · MongoDB · Redis · Karafka · Docker · Kubernetes · GitLab CI

Full Stack Developer · Freelance

June 2020 - July 2022

Ho Chi Minh City, Vietnam

- Owned architecture, implementation, and delivery for two products as the sole or lead developer, working directly with founders to turn requirements into backend, web, and mobile functionality.
- Built Modern Wealth Academy, a crypto education platform with a Next.js web dashboard and a React Native mobile app on a shared Supabase backend; integrated Stripe, Zoom, and Calendly to cover sign-up, identity verification, contract signing, payment, class booking, and course access.
- Built Slim Wonen, a Netherlands-based energy management product, covering a React Native mobile app, a Next.js admin dashboard, and a public marketing website on one shared backend.
- Shared types and UI components across web and mobile to reduce duplication and keep clients consistent as APIs evolved, making changes easier to maintain across platforms.
- Deployed serverless APIs and scheduled jobs on Vercel, Supabase, and Inngest, and shipped releases to the App Store and Google Play while monitoring crashes and usage in production through Sentry and PostHog.

TypeScript · Node.js · NestJS · Next.js · React · React Native · Expo · Supabase · Firebase · PostgreSQL · MySQL · MongoDB · TypeORM · Tailwind CSS · Tamagui · React Query · WebSocket · Vercel · Docker

Full Stack Developer · Coinhako

July 2016 - June 2020

Singapore (Remote)

- Built and maintained backend services and REST APIs for a licensed Singapore cryptocurrency exchange used by both web and mobile clients, and contributed to the JavaScript front end.
- Developed wallet features, order handling, and trading integrations with partner services, with a strong focus on data accuracy and reliability.
- Implemented customer verification, risk, and compliance workflows for financial operations.

- Owned deposit, withdrawal, and payout features through production support, including reconciliation and logging to support investigation of transaction issues.

Ruby on Rails | JavaScript | AngularJS | PostgreSQL | REST API | Agile

Full Stack Developer · Larion

July 2015 - July 2016

Ho Chi Minh City, Vietnam

- Built web applications for international clients, contributing to both backend APIs and ReactJS front-end components.

ReactJS | JavaScript | Ruby on Rails | Foundation

Full Stack Developer · Web4g Solutions

July 2014 - July 2015

Ho Chi Minh City, Vietnam

- Developed web applications and responsive front-end interfaces with JavaScript, jQuery, and Bootstrap.

PHP | CodeIgniter | JavaScript | jQuery | Bootstrap | MySQL

KEY PROJECTS

Sakani (Oivan)

Saudi Arabia | Team of 40 | TypeScript, Angular, Ruby on Rails

- Contributed to a large Saudi housing platform serving real-estate developers, brokers, and home buyers, working on both the Angular front end and the backend APIs behind it.
- Developed project, booking, price quotation, and subsidy contract workflows, including permission and approval logic.
- Integrated government, banking, and payment services, and supported Hijri dates, Arabic and English localization, and map-based property search.

Coinhako Exchange

Singapore | Team of 15 | Ruby on Rails, JavaScript, PostgreSQL

- Built and maintained services and REST APIs for a licensed Singapore cryptocurrency exchange.
- Developed wallet features, order handling, and trading integrations with partner services.
- Built customer verification, risk, and compliance flows to meet Singapore financial regulations.

Modern Wealth Academy

Singapore | Team of 10 | TypeScript, Next.js, React Native, Supabase, Stripe

- Built a crypto education platform with a Next.js web dashboard and a React Native mobile app backed by a shared Supabase database.
- Implemented the full student journey including sign-up, identity verification, contract signing, payment, class booking, and course access via Stripe, Zoom, and Calendly.
- Built dashboards and reports for coaches and administrators to track revenue, attendance, and student progress, with Excel and PDF export.
- Set up background jobs and email workflows for onboarding, reminders, and follow-ups, and shipped the mobile app with push notifications and secure login.

Slim Wonen

Netherlands | Team of 3 | TypeScript, React Native, Next.js, Supabase

- Worked on a three-person core team on an energy-management product covering a React Native mobile app, a Next.js admin dashboard, and a public website on a shared backend.
- Built core mobile features including sign-in, household onboarding, energy dashboards, and push notifications, sharing types and UI components with the web dashboard.
- Managed the release process end to end: building, publishing to the App Store and Google Play, and monitoring crashes and user activity in production.

EDUCATION

Bachelor's Degree in Software Engineering

Industrial University of Ho Chi Minh City | 2011 - 2015

LANGUAGES

- Vietnamese - Native.
- English - Professional Working Proficiency.

CERTIFICATIONS AND AWARDS

- Professional Scrum Master I (PSM I), Scrum.org, 2023.
- Silver Prize, Ho Chi Minh City Skills Competition - Web Services Category, 2014.
